Innovative Lesson Plans for Language Teachers

The Eu+Map partnership is pleased to share the latest phases of the project.

Curriculum

This document is a curriculum for the “Project EU+Map” containing all the lesson plans for a 20-hour blended language class that aims to enhance the teaching skills of language teachers who work with migrants and involves establishing alternative educational avenues. This approach enables them to effectively engage individuals facing challenging learning circumstances. Additionally, it provides migrants who are at risk of social isolation the chance to take part in tailored, informal pilot language.

What is the goal of the Curriculum?

The curriculum is designed to help learners acquire practical language skills through different methods, such as different digital tools or storytelling. This holistic approach aims to provide an engaging and immersive language learning experience. The course aims to collect the positive experiences of the students through these methods in the end.
